Portfolio — The Data Process Lab

PERSONAL SUMMARY

Business Analyst | Process Improvement | Business Intelligence | Decision Support

Business Analyst with over nine years of experience helping organizations improve operational performance through business analysis, process improvement, reporting automation, and decision-support systems. Experienced in partnering with executive leadership and cross-functional teams to translate business requirements into scalable solutions that improve operational visibility and strategic decision-making. My experience spans FMCG, FinTech, Construction, Marketing, Transport, and Media, where I have led analytics initiatives, strengthened data governance, automated reporting processes, and developed business intelligence capabilities that enable sustainable organizational growth.

CORE COMPETENCIES

Business Analysis | Business Intelligence | Stakeholder Management | Process Improvement | Requirements Gathering | KPI Development | Reporting Automation | Executive Reporting | Operational Analytics | Data Governance | Cross-functional Collaboration

WORK EXPERIENCE

TAEDS PROJECT- KENYA POLICE SERVICE (KPS)

Data Consultant - Kenya Police Service (KPS) Subcontracted consulting engagement **2026 July -Present**

- Analyze operational requirements and translate them into structured data fields, data standards, and documentation to support the development of a traffic accident and enforcement information system.
- Develop data dictionaries, data-quality frameworks, validation-rule catalogues, and data-entry standards to improve data completeness, validity, consistency, and reliability.
- Define KPI and reporting requirements and develop dashboard specifications to support operational monitoring and management decision-making.
- Collaborate with developers, client stakeholders, and GIS specialists to align data structures, validation logic, and reporting needs with system requirements.
- Support testing and implementation through representative test datasets, user acceptance testing documentation, and data-validation requirements.

SAMLEX INVESTMENTS **2023 Sep -2025 Sep**

Business Intelligence Analyst Consultant (Part time)

- Partnered directly with the Managing Director, Project Managers, and Operations team to understand reporting requirements and operational priorities.

- Performed analysis on business processes, project performance, schedules, operational costs, and subcontractor performance to identify process improvement opportunities, and delivered operational insights and reports that supported strategic decision-making, resource allocation, and project performance management.
- Developed KPI frameworks, dashboards, and automated reporting solutions that improved operational efficiency by 30%.

MARKETFORCE TECHNOLOGIES LIMITED **2022 Jan -2023 Jul**

Data Product Manager

- Collaborated with C-suite leadership and cross-functional teams to define business KPIs, gather business requirements, and translate organizational needs into scalable reporting and business intelligence solutions.
- Led and developed a team of six data professionals responsible for delivering executive dashboards, KPI frameworks, and business intelligence products that supported strategic and operational decision-making across the organization.
- Reduced manual reporting by 90% through reporting automation and standardized analytics processes.
- Collaborated with Data Engineering to design scalable reporting architecture using AWS Redshift and AWS Glue.
- Strengthened data governance and reporting consistency to support strategic decision-making across Finance, Commercial, Operations, Product, and Customer Success teams.

Data Analyst and Key Account Manager **2020 Mar -2021 Dec**

- Served as the primary business liaison for MarketForce's largest enterprise client, Platinum Credit Limited, supporting a large-scale Sales Force Automation (SFA) platform.
- Partnered directly with senior managers to understand business processes, gather business and system requirements, and translate operational needs into product enhancements.
- Collaborated with software developers to prioritize, validate, and resolve business-critical system issues, ensuring operational continuity and successful delivery of business requirements.
- Improved data quality by leading initiatives that eliminated 80% of data errors through data validation, process improvements, and user training.
- Developed Standard Operating Procedures (SOPs), trained end users, and delivered dashboards and operational reports that supported leadership decision-making.

ADBUD LIMITED **2022 Dec -2023 Feb**

Lead Data Consultant (Part time)

- Partnered directly with the company's Directors to understand business objectives and reporting requirements.
- Designed and implemented the organization's first standardized framework for extracting, validating, transforming, and reporting DSP campaign data.
- Developed SOPs and an end-to-end reporting pipeline that strengthened data governance and reporting consistency.
- Delivered dashboards and insights that enabled leadership to optimize campaigns, media budgets, and audience targeting.

SARACEN MEDIA LIMITED **2019 Feb -2020 Feb**

Data Analyst

- Partnered with media planners, brand managers, and clients to analyze campaign performance and identify opportunities to improve return on investment.
- Developed dashboards and analytical reports that translated campaign data into actionable business insights.
- Conducted market, audience, and performance analysis to support strategic media planning and investment decisions.
- Evaluated advertising channel performance and cost-effectiveness, enabling clients to optimize media spend and maximize campaign impact.
- Delivered data-driven recommendations that supported client growth strategies and strengthened campaign performance.

OTHER EXPERIENCE

SUFURI GROUP LIMITED **2015 Aug -2021 Dec**
Business Intelligence Analyst Consultant for Car Leasing Company (Part time)

- Provided business intelligence consulting to the Managing Director of a vehicle leasing company, transforming manual operational records into structured performance reporting for fleet utilization, revenue, and operational decision-making.

GYBE LIMITED 2014 Dec -2019 Jan
Operations Manager

WORLD BANK- GRSF NORTHERN CORRIDOR ROAD SAFETY AUDIT 2015 Jan -2015 Aug
